

DISASTER PREPAREDNESS CHECKLIST

The California Fire Foundation reminds you to keep your family safe by being prepared and ready for when a wildfire or disaster hits with some helpful tips from the California Fire Foundation's Firefighters on Your Side.

Create your 5 Minute Plan (see QR Code) so you and your family will be prepared. Place this checklist somewhere central in your home, so it can be easily seen and accessed at any time.

Don't forget to talk about your plan with all members of your household, especially young children.
